Card Swipe Safe

HL100ES

This safe provides the ultimate flexibility with a reprogrammable electronic lock with the option of a key pad or card swipe entry. The safe is large enough to fit a laptop computer, but can be conveniently stored in a private location such as a closet floor. An interior LED light makes searching for important valuables easier when the safe is stored in a dimly lit setting.

FEATURES:

- Users are able to choose between a reprogrammable electronic lock with key pad or card swipe reader for securing their important documents and valuables
- Master override key allows for backup access in the case of a forgotten code or lost/stolen magnetic stripped card
- Auxiliary Remote Battery Pack provides back-up access in the case the installed batteries are not strong enough to operate the card swipe reader or reprogrammable electronic lock
- Solid steel, pry-resistant door and body protect against unauthorized access
- 2 live locking bolts help to prevent unwanted entry
- Includes bolt down kit to prevent unauthorized removal
- Fits up to a 17-inch computer
- Carpeted floor protects valuables against scratches and damage
- Interior LED light provides quick and convenient access to important documents and valuables
