Cuando vea el icono de información, consulte el paso de montaje correspondiente para obtener comentarios adicionales y asistencia.

Lo que necesitará

Para ensamblar este producto (estos artículos no están incluidos).

Seguridad.

- Algunas piezas pueden tener bordes filosos. Tenga cuidado al manejar los componentes.
- Siempre use guantes, protección para los ojos y mangas largas cuando esté ensamblando o realizando el mantenimiento de su producto.
- No intente ensamblar el producto en condiciones de viento o humedad.
- Para evitar lesiones, no permita que los niños jueguen debajo del producto durante su montaje.
- No se trepe ni se pare sobre el techo.
- Algunas versiones de este producto vienen pintadas. Si la pintura se rasga durante el montaje, puede ser reparada con los siguientes tintes: Gris - RAL 7012

Antes del Montaje

- Este producto es compatible con la gama de Cubiertas de Patio de Palram.
- Consulte con las autoridades locales si es necesario obtener algún permiso para construir el producto.
- Es muy recomendable que sea asistido por otra persona en algunos de los pasos de la instalación.
- Ordene las piezas y verifíquelas de acuerdo con el índice de contenido.
- Este producto es compatible con la gama de Cubiertas de Patio de Palram.
- Este producto debe ser montado sobre una base sólida (como ser hormigón o asfalto) y anclado al suelo.
- Antes de comenzar el montaje, elija el sitio con cuidado. Asegúrese de que la superficie de montaje esté nivelada y libre de objetos afilados para evitar arañazos o daños al producto.
- Antes de la instalación, algunas partes de la cubierta del Patio deben ser desarmadas, se recomienda guardarlas en un lugar seguro para necesidades futuras.

Durante el Montaje

- Estas instrucciones se refieren principalmente al armado de la ParedLateral en el lado derecho de la cubierta para patios. Es posible armar la ParedLateral en el lado izquierdo de la cubierta para patios siguiendo los mismos pasos.
- Las notas "**Opción 1**" u "**Opción 2**" presentes en varios pasos representan el lado seleccionado para el armado. "**Opción 1**" se refiere al armado del lado izquierdo mientras "**Opción 2**" se refiere al lado derecho.
- Al montar la estructura del marco sobre la pared posterior o sobre el suelo, es necesario aplicar sellante de silicona para asegurar un aislamiento máximo.

Paso 3: Por favor siga la "**Opción 1**" u "**Opción 2**" según el lado en el que escoja montar la ParedLateral.

Paso 4: Por favor una la pieza #7463 a la pieza #7482 ya unida a la pared.

Paso 6: Por favor una la pieza #7482 a la pieza #7463 según se muestra en la ilustración 6a.

Paso 7: Es importante ubicar los agujeros mirando hacia afuera, para permitir el drenaje de agua.

Paso 20: Por favor siga la "**Opción 1**" u "**Opción 2**" según el lado en el que escoja montar la ParedLateral.

Utilizar parte # 7514 al instalar la pared lateral en el lado izquierdo de la cubierta del patio.

Utilizar parte # 7485 al instalar la pared lateral en el lado derecho de la cubierta del patio.

Paso 21: Por favor siga la "**Opción 1**" u "**Opción 2**" según el lado en el que escoja montar la ParedLateral.

Paso 36: Es posible aplicar sellante de silicona en caso necesario.

Paso 39: Es posible rebajar el panel para obtener el tamaño deseado en caso necesario.

Paso 41: Por favor inserte la goma aislante (#7473) en ambos lados del panel al mismo tiempo, como se describe en la ilustración 41b.

Paso 45: Por favor use los restos de goma aislante (#7473) del **paso 41**. Antes de armar
