## MILLESIMATO 2022

**BRUT**

**(I)** Prosecco Rosé è un vino dal colore delicato del petalo di rosa, ha un perlage fine, elegante e persistente. Il suo profumo è fresco, gradevole e fragrante, con piacevoli sentori floreali e di frutti di bosco come lamponi e fragole. È consigliato l'abbinamento con antipasti, primi o semplici secondi a base di pesce e crostacei, e con carni bianche. Bottiglia: GL 71 (Vetro) - Tappo: FOR 51 (Sughero) - Gabbietta: FE40 (Metallo) - Capsula: C/ALU 90 (Alluminio/Plastica). **Raccolta differenziata:** Verifica le disposizioni del tuo Comune.

**(GB)** Prosecco Rosé has a delicate rose petal color, it has a fine, elegant and persistent perlage. Its bouquet is fresh, pleasant and fragrant, with floral and wild fruit scents such as raspberries and strawberries. It is recommended to combine it with appetizers, first or simple second courses based on fish and shellfish, as well as with white meats.

Organoleptic characteristics	A popped round-shaped kernel of popcorn with a brown colour. The flavour is rich and sweet from the caramel and Belgian dark chocolate, with warm fruity undertones of real orange. The popcorn has a chocolatey, orange caramel odour. The texture of the popcorn is crunchy on the outside and soft and fluffy in the middle.
Genetic Modification statement	We herewith confirm that the product we supply to you has been produced without the use of genetically modified organisms and/or any products derived from such organisms.
Microbiological statement	The manufacture of popcorn is an inherently low risk process since all of the ingredients are subject to previous processing and none of them support the growth of microorganisms. The popping process involves high temperatures and the popped corn is packed into sealed bags shortly thereafter. The finished product has a very low water activity (<0.6) and will not support the growth of bacteria. Chemical degradation is very slow, negligible during the shelf-life of the product and not harmful.
