Additional safety warnings

Battery safety

DANGER! Fire risk!

The battery product to be charged must be placed on a nonflammable, heat resistant and non-conductive surface while charging.

The battery must not be charged unattended.

Keep corrosive, flammable and easily combustible objects clear of the battery charger and the battery product.

Do not cover the battery charger and the battery product while charging.

Disconnect the battery charger immediately in the event of smoke formation or fire.

Only use the original GARDENA Charger to charge the battery. The use of other battery chargers may damage the batteries irreparably and even cause a fire.

Do not use the GARDENA charger to charge external rechargeable batteries, as GARDENA cannot guarantee compatibility and could therefore present a risk of fire or explosion.

Do not charge non-rechargeable batteries.

DANGER! Risk of explosion!

Protect battery products from heat and fire. Do not leave on radiators or expose to strong sunshine for long periods.

Do not operate them in explosive atmospheres, e.g. in the presence of flammable liquids (vapours), flammable gases or accumulations of dust. Batteries may create sparks which could ignite the mixtures.

Only charge and use the battery product in ambient temperatures of between 0 °C and 40 °C. Allow battery to cool down after long periods of use.

Check the charging cable regularly for signs of damage or ageing (brittleness). Only use it in perfect condition.

Do not stow or transport the battery product above 45 °C or in direct sunlight. Ideally, the battery product should be stored below 25 °C so that self-discharge is low.

Do not expose the battery product to rain, water (immersion) or wet conditions. Water entering a battery product will increase the risk of electric shock.

If usage of the battery is not planned for a certain time (winter period) reload the battery to avoid a deep discharge.

Do not store the battery product in places where static electricity is present.

Electrical safety

DANGER! Cardiac arrest!

This product makes an electromagnetic field while it operates. This field may under some conditions interfere with active or passive medical implants. To decrease the risk of conditions that can possibly injure or kill, we recommend persons with medical implants to speak with their physician and the medical implant manufacturer before you operate the product.

Only use the battery product between 0 °C and 40 °C.

Thoroughly inspect the area where the product is to be used and remove all wires and other foreign objects.

Before using the product and after any impact, check for signs of wear or damage and repair as necessary.

If the product can no longer be switched off in the event of a defect, place the product on a solid surface and monitor it until the battery is empty. Send the defective product to our GARDENA Service Centre.

Never attempt to use an incomplete product or one with an unauthorised modification.

Stop the product if the product starts to vibrate abnormally. Check immediately. Excessive vibration can cause injury.

Do not use the product nearby a water.

Use personal protective equipment.

Wear gloves for cleaning the cutting device.

Always wear eye protection.

Protective equipment such as gloves, non-skid safety shoes, or hearing protection used for appropriate conditions will reduce personal injuries.

Be careful during adjustment of the product to prevent entrapment of the fingers between moving and fixed parts of the machine.

Don't use water, or chemical substances for cleaning the guard or other parts of the trimmer.

Keep all nuts, bolts and screws tight to be sure the product is in a safe working condition.

Do not disassemble the product further than the delivery status.
