Prosecco DOC Spumante Brut - cl 75

Bottega Gold is a Prosecco DOC, obtained by the vinification of Glera grapes, grown in the hilly area of the province of Treviso. Bottega Gold has been defined as the "Glamour Sparkling", which is characterized by the distinctive golden bottle.

Production Area: Province of Treviso (Veneto)

Vine: Glera

Plants per Hectare: 3000-3500

Training System: Double inverted

Harvest Period: From mid-September

Yield per Hectare: 150 q/Ha

Characteristics:

Production Area

- > The cultivation area of Glera grapes is located in the hilly area of the province of Treviso up to the slopes of Valdobbiandene, which is close to the Venetian Prealps. This area is characterised by long but not excessively cold winters and by hot but not sultry summers.
- > The vines in this region grow on different types of land, each characterised by a variety of soils, exposures and slopes that make this Prosecco a wine with many nuances.
- > The hilly terrain is subject to high temperature ranges between day and night. This variation in temperature enables the development of finer, more elegant and at the same time more intense aromas.

Production Process

- > The grapes are harvested and brought quickly to the cellar to preserve their quality and avoid alterations that could be caused by:
 - > early oxidation;
 - > microbial contamination;
 - > sun exposure.
- > The grapes are softly pressed and the obtained must is stored at low temperature to preserve its freshness.
- > The fermentation is made partially starting from must. The entire process lasts about 40 days at a controlled temperature of 14-15 °C with the addition of selected yeasts.
- > Following fermentation, the wine is left in contact with the lees: the dead yeast cells release some important compounds which enhance the body, the structure and the aroma of the wine.

Organoleptic Characteristics:

Color and Appearance: Bright, straw yellow, fine and persistent perlage.

Bouquet: Typical and refined with fruity (green apples, pear, citrus fruits) and floral (white flowers, acacia, wisteria and lily of the valley) notes, sage and spices in the finish.

Taste: Soft, harmonious and elegant, with a light body and with lively yet balanced acidity.

Chemical Characteristics:

ABV: 11%

Sugar, g/l: 10-14

Total Acidity, g/l: 5,00-6,50

Serving Temperature: 4-5 °C

Serving Suggestions: Excellent as an aperitif and in cocktails, it goes particularly well with starters, light first courses (seafood and non-aromatic herb pasta and risotto), steamed or raw fish dishes, grilled white meats, stewed or fresh vegetable dishes.

Enjoy it within: 18 months.

Recommended Glass: Flute.

Sizes Available: 20 cl; 75 cl; 150 cl; 300 cl; 600 cl; 900 cl.
