## CARE AND SAFETY GUIDELINES

---

- When assembling or handling the Gazebo, use only those tools listed in the user manual.
- Wear safety goggles and always follow the manufacturer's instructions when using power tools.
- Do not attempt assembly on windy or cold days.
- Wind direction is an important factor to consider when determining the location of the Gazebo. Reduce exposure to the wind, in general, and of the door side in particular.
- Be careful when handling parts with steel edges.
- Do secure the Gazebo to an immovable object or anchor to the ground by inserting proper screws into the ground (screws are not included).
- Periodically check the Gazebo to ensure that it is stable and that the site is level.
- Do not stand or put any object on the roof.
- Do not stand or sit on the Shelves.
- Do not put hot items on the Gazebo's shelves, such as recently used grills and blowtorches, and volatile chemicals.
- Do not expose the product to flames and keep the Gazebo away from heat sources.
- Avoid placing heavy items against the walls and/or beams, as this may cause distortion.
- Keep the roof clear of accumulated snow and leaves. Large amounts of snow on the roof can damage the Gazebo, making it unsafe to enter.
- Start general cleaning with a soft cloth or non-abrasive scourer to remove dust and dirt before rinsing with a garden hose. For removing grease and oil, mix mild hand dishwashing soap and gently clean with a soft cloth; rinse thoroughly while avoiding letting solutions dry on surfaces. It's a must to always test each cleaning product on an inconspicuous area first to ensure it does not damage the surface.
- Consult your local authorities to check if permits are required to erect the Gazebo.

---

## DIRECTIVES D'ENTRETIEN ET DE SÉCURITÉ

---

- Lors de l'assemblage ou de la manipulation du belvédère, utiliser uniquement les outils indiqués dans le manuel d'utilisation.
- Porter des lunettes de sécurité et suivre toujours les instructions du fabricant lorsque de l'utilisation d'outils électriques.
- Ne pas tenter d'assembler le belvédère lorsqu'il y a du vent ou qu'il fait froid.
- La direction du vent est un facteur important à prendre en compte lors de la détermination de l'emplacement du belvédère. Il est recommandé de réduire l'exposition au vent, en général, et du côté de la porte, en particulier.
- Être prudent lorsque de la manipulation de pièces avec des bords en acier.
- Fixer le belvédère à un objet immobile ou à une ancre au sol en insérant les vis adaptées dans le sol (les vis ne sont pas incluses).
- Vérifier régulièrement que le belvédère est stable et que le terrain reste bien de niveau.
- Ne pas se tenir debout et ne pas poser d'objet sur le toit.
- Ne pas se tenir debout ou s'asseoir sur les étagères.
- Ne pas mettre d'objets chauds sur les étagères du belvédère, tels que des grilles et des chalumeaux récemment utilisés, ni de produits chimiques volatils.
- Ne pas exposer le produit aux flammes et éloigner le belvédère des sources de chaleur.
- Éviter de placer des objets lourds contre les murs et/ou les poutres, car cela pourrait provoquer une distorsion.
- Débarrasser le toit de la neige et des feuilles qui s'y accumulent. De grandes quantités de neige sur le toit peuvent endommager le belvédère et rendre son accès dangereux.
- Commencer le nettoyage général avec un chiffon doux ou un récurioir non abrasif pour enlever la poussière et la saleté avant de rincer avec un tuyau d'arrosage. Pour enlever la graisse et l'huile, mélanger du savon à vaisselle doux à la main et nettoyer délicatement avec un chiffon doux ; rincer abondamment tout en évitant de laisser sécher les solutions sur les surfaces. Il est impératif de tester d'abord chaque produit de nettoyage sur une zone discrète pour s'assurer qu'il n'endommage pas la surface.
- Consultez les autorités locales pour vérifier si un permis est nécessaire pour ériger le belvédère.

---

## NORMAS DE SEGURIDAD

---

- Al montar o manipular el gazebo, utilice solo las herramientas enumeradas en el manual del usuario.
- Use gafas de seguridad y siga siempre las instrucciones del fabricante cuando utilice herramientas eléctricas.
- No intente montarlo en días ventosos o fríos.
- La dirección del viento es un factor importante a considerar al determinar la ubicación del gazebo. Reduzca la exposición al viento, en general, y del lado de la puerta en particular.
- Tenga cuidado al manipular piezas con bordes de acero.
- Asegure el gazebo a un objeto inamovible o ánclelo al suelo con ayuda de los tornillos adecuados (los tornillos no están incluidos).
- Revise periódicamente el gazebo para asegurarse de que se encuentre estable y que el sitio esté nivelado.
- No se suba a la parte superior del gazebo ni coloque ningún objeto sobre él.
- No se suba a los estantes ni se sienta sobre ellos.
- No coloque artículos calientes en los estantes del gazebo, como parrillas y sopletes usados recientemente, ni productos químicos volátiles.
- No exponga el producto a las llamas y mantenga el gazebo alejado de fuentes de calor.
- Evite colocar objetos pesados contra las paredes y/o vigas, ya que esto puede distorsionarlas.
- Mantenga el techo libre de nieve y hojas acumuladas. El gazebo se puede dañar si hay grandes cantidades de nieve en el techo, por lo que no sería seguro entrar.
- Comience la limpieza general con un paño suave o un estropajo no abrasivo para eliminar el polvo y la suciedad antes de enjuagar con una manguera de jardín. Para eliminar la grasa y el aceite, mezcle con lavavajillas de mano y límpielo suavemente con un paño suave; enjuague bien para evitar que esta solución se seque en las superficies. Es imperativo probar cada producto de limpieza primero en una zona no visible para garantizar que no dañe la superficie."
- Consulte a las autoridades locales para verificar si se requieren permisos para erigir el gazebo.

## PFLEGE- UND SICHERHEITSHINWEISE

---

- Verwenden Sie bei der Montage oder Errichtung des Pavillons nur die in der Bedienungsanleitung aufgeführten Werkzeuge.
- Tragen Sie eine Schutzbrille und befolgen Sie bei der Verwendung von Elektrowerkzeugen immer die Hinweise des Herstellers.
- Sehen Sie von einer Montage an windigen oder kalten Tagen ab.
- Die Windrichtung ist ein wichtiger Faktor, der bei der Bestimmung des Pavillonstandorts zu berücksichtigen ist. Reduzieren Sie die Windeinwirkung allgemein und insbesondere an der Türseite.
- Seien Sie vorsichtig bei der Handhabung von Teilen mit Stahlkanten.
- Befestigen Sie den Pavillon an einem unbeweglichen Gegenstand oder verankern Sie ihn mit geeigneten Schrauben am Boden (Schrauben sind nicht im Lieferumfang enthalten).
- Überprüfen Sie den Pavillon regelmäßig, um sicherzustellen, dass er sicher steht und der Aufstellungsort eben ist.

- Stellen oder legen Sie keine Gegenstände auf das Dach.
- Stellen oder setzen Sie nicht auf die Regale.
- Legen Sie keine heißen Gegenstände in die Regale des Pavillons, wie vor kurzem verwendete Grills und Lötlampen und flüchtige Chemikalien.
- Setzen Sie das Produkt keinen Flammen aus und halten Sie Wärmequellen vom Pavillon fern.
- Vermeiden Sie es, schwere Gegenstände gegen die Wände und/oder Träger zu legen, da dies zu Deformationen führen kann.
- Halten Sie das Dach frei von Schnee und Blättern. Große Schneemengen auf dem Dach können den Pavillon beschädigen und das Betreten unsicher machen.
- Beginnen Sie die Grundreinigung mit einem weichen Tuch oder einem sanften Scheuerschwamm, um Staub und Schmutz zu entfernen, bevor Sie mit einem Gartenschlauch nachspülen. Zum Entfernen von Fett und Öl fügen Sie milde Handgeschirrspülseife zu und führen die Reinigung vorsichtig mit einem weichen Tuch durch. Spülen Sie gründlich nach, vermeiden Sie jedoch, dass Reinigungslösungen auf Oberflächen trocknen. Es ist immer zwingend erforderlich, jedes Reinigungsprodukt zuerst an einer unauffälligen Stelle zu überprüfen, um sicherzustellen, dass es die Oberfläche nicht beschädigt."
- Wenden Sie sich zwecks Prüfung ob für die Errichtung des Pavillons Genehmigungen erforderlich sind, an Ihre Behörden vor Ort.

## ONDERHOUDS- EN VEILIGHEIDSRICHTLIJNEN

- Gebruik bij het monteren of hanteren van het tuinhuisje alleen de gereedschappen die in de gebruikershandleiding worden vermeld.
- Draag een veiligheidsbril en volg altijd de instructies van de fabrikant bij het gebruik van elektrisch gereedschap.
- Voer de montage niet uit op winderige of koude dagen.
- De windrichting is een belangrijke factor om rekening mee te houden bij het bepalen van de locatie van het tuinhuisje. Verminder de blootstelling aan de wind in het algemeen en aan de deurzijde in het bijzonder.
- Wees voorzichtig bij het hanteren van onderdelen met stalen randen.
- Bevestig het tuinhuisje aan een onbeweeglijk object of veranker het aan de grond door geschikte schroeven in de grond te steken (schroeven zijn niet inbegrepen).
- Controleer het tuinhuisje regelmatig om er zeker van te zijn dat dit stabiel is en dat de site waterpas is.
- Ga niet staan en plaats geen voorwerpen op het dak.
- Ga niet op de planken staan of zitten.
- Plaats geen hete voorwerpen op de planken van het tuinhuisje, zoals recent gebruikte grills en branders, en vluchtige chemicaliën.
- Stel het product niet bloot aan vlammen en houd het tuinhuisje uit de buurt van warmtebronnen.
- Vermijd het plaatsen van zware voorwerpen tegen de muren en/of balken, omdat dit vervorming kan veroorzaken.
- Houd het dak vrij van opgehoopte sneeuw en bladeren. Grote hoeveelheden sneeuw op het dak kunnen het tuinhuisje beschadigen, waardoor het onveilig wordt om binnen te komen.
- Begin met algemene reiniging met een zachte doek of niet-schurende schuurspons om stof en vuil te verwijderen voordat u met een tuinslang afspoelt. Voor het verwijderen van vet en olie, mengt u milde afwaszeep en reinigt u voorzichtig met een zachte doek; spoel grondig terwijl u oplossingen op oppervlakken laat drogen. U moet elk reinigingsproduct altijd eerst testen op een onopvallende plek om er zeker van te zijn dat dit het oppervlak niet beschadigt."
- Raadpleeg uw lokale autoriteiten om te controleren of er vergunningen nodig zijn om het tuinhuisje te installeren.

## LINEE GUIDA PER LA CONSERVAZIONE E LA SICUREZZA

- Durante il montaggio o la gestione del gazebo, utilizzare solo gli strumenti elencati nel manuale d'uso.
- Indossare occhiali di sicurezza e seguire sempre le istruzioni del produttore quando si utilizzano utensili elettrici.
- Non tentare il montaggio in giornate ventose o fredde.
- La direzione del vento è un fattore importante da considerare quando si stabilisce la posizione del gazebo. Ridurre l'esposizione al vento, in generale, in particolare del lato porta.
- Prestare attenzione quando si maneggiano parti con bordi in acciaio.
- Fissare il gazebo a un oggetto immobile o ancorarlo a terra inserendo le viti appropriate nel terreno (le viti non sono incluse).
- Controllare periodicamente il gazebo per assicurarsi che sia stabile e che il sito sia in piano.
- Non salire né appoggiare alcun oggetto sul tetto.
- Non salire né sedersi sugli scaffali.
- Non mettere oggetti caldi sugli scaffali del gazebo, come griglie e torce usate di recente e sostanze chimiche volatili.
- Non esporre il prodotto alle fiamme e tenere il gazebo lontano da fonti di calore.
- Evitare di posizionare oggetti pesanti contro le pareti e/o le travi, in quanto ciò potrebbe causare distorsioni.
- Tenere il tetto lontano da neve e foglie accumulate. Grandi quantità di neve sul tetto possono danneggiare il gazebo, rendendone pericoloso l'ingresso.
- "Iniziare la pulizia generale con un panno morbido o uno spugna non abrasiva per rimuovere polvere e sporco prima di risciacquare con un tubo da giardino. Per rimuovere grasso e olio, mescolare sapone per piatti delicato e pulire delicatamente con un panno morbido; risciacquare accuratamente evitando che le soluzioni si asciugino sulle superfici. È indispensabile testare sempre ogni prodotto per la pulizia su un'area poco visibile per assicurarsi che non danneggi la superficie."
- Consultare le autorità locali per verificare se sono necessari permessi per installare il gazebo.

- Ao montar ou manusear a Pérgula, use apenas as ferramentas relacionadas no manual do usuário.
- Use óculos de segurança e siga sempre as instruções do fabricante ao utilizar ferramentas elétricas.
- Não tente montar em dias de muito vento ou frios.
- A direção do vento é um fator importante a ser considerado ao determinar a localização da Pérgula. Reduza a exposição ao vento, em geral, e no lado da porta, em particular.
- Cuidado ao manusear peças com arestas metálicas.
- Prenda a Pérgula a um objeto fixo ou ancore-a ao solo utilizando estacas metálicas adequada para solo (estacas não incluídas).
- Verifique periodicamente a Pérgula para se assegurar de que está estável e que o local esteja nivelado.
- Não fique de pé nem coloque qualquer objeto na cobertura.
- Não fique de pé ou sentado nas prateleiras.
- Não coloque itens aquecidos nas prateleiras da Pérgula, como grelhas e maçaricos utilizados recentemente ou produtos químicos voláteis.
- Não exponha o produto ao fogo e mantenha a Pérgula longe de fontes de calor.
- Evite colocar itens pesados apoiados nas paredes e/ou vigas, pois podem deformar o produto.
- Remova a neve a folhas acumuladas da cobertura. Um grande volume de neve na cobertura pode danificar a Pérgula, tornando insegura a permanência em seu interior.
- Inicie a limpeza geral com um pano macio ou uma esponja não abrasiva, para remover poeira e sujeira, antes de enxaguar com uma mangueira de jardim. Para remover graxa e óleo, misture detergente para louças e limpe suavemente com um pano macio; enxágue bem, evitando que as soluções sequem nas superfícies. É indispensável sempre experimentar primeiro cada produto de limpeza em uma área discreta para garantir que não danifique a superfície."
- Consulte as autoridades locais para verificar se são necessárias licenças para instalar a Pérgula no local desejado.
