

Step By Step Ordering Guide

Step 1

Download and print the measuring guide for the garage door you require.

Step 2

Please refer to the measuring guide, to find out how best to measure your garage opening for the correct size door. This will ensure the correct sized door is paid for at point of order. Please note: Your measurements will not be used as exact sizes for manufacture. A professional surveyor will complete the final survey for production.

Step 3

Order your new garage door.

Step 4

A member of the Cardale team will make contact, within 24 hours of order, to arrange a site survey. During the survey members will choose the exact colour they require. The site survey will take place within 1 week from point of order.

Step 5

An installation date will be advised by the office, lead times are approximately 3-4 weeks for roller doors and approximately 6-12 weeks for sectional doors from the point of the survey.

Up and over 5 weeks
Roller doors 5 weeks
Side hinged 7 weeks
Sectional 10 -12 weeks
confirmed at point of survey

Step 6

Before installation, please read the preparation guide to ensure your property is prepared for installation.

Step 7

Installation of your new Cardale garage door.

Step 8

Don't forget to log onto **www.cardale.com** to register your door and take advantage of Cardale's industry leading warranties.
